UNLIMITED APPLICATIONS

VERSATILE

Spray granite is a one-of-a-kind coating system that is suited for internal and external applications. It offers seamless finishes for walls and floors that are hard-wearing and long-lasting.

Consisting of four to five different product layers, the spray granite system was engineered to produce a finish that is fully waterproof, extremely durable, and more resilient when compared to other products on the market.

Spray granite can be installed quickly with minimal interruptions to households and businesses, making it an ideal choice for those who want to upgrade their space without causing disruption. Whether you're looking to improve the look of your home or business, spray granite is an excellent choice that can transform any space.

SURPRISING REALISM

NATURAL GRANITE EFFECT

Spray granite is a unique and effective way to achieve stunning stone-effect finishes for both internal and external surfaces. It uses granite particles in a water-based resin that is applied using a specially engineered spray gun, resulting in a seamless finish that brings timeless beauty to any setting.

Just like natural granite, spray granite is also robust, hard-wearing and easily maintained with the added benefits of flexibility, anti-cracking properties and a lower price tag.

Spray granite is an excellent choice for those who want to upgrade their space without breaking the bank. Whether you're renovating your home or office, spray granite provides a stunning, long-lasting, and affordable surfaces that will stand the test of time.

TIMELESS FINISH FOR EVERY TASTE

HIGHLY CUSTOMISABLE

Spray granite is an incredibly versatile coating system that provides endless possibilities for creativity and personal expression through mixing and matching different colours.

It comes in 22 different shades from classic whites and bright yellows to modern greys and pastel pinks. There is a colour for every project no matter how big or small.

Spray granite flexibility can help achieve bespoke designs whether that's multi-coloured stripes and geometric shapes or a classic uniform finish.

Regardless of your choice, spray granite surfaces are long-lasting and require minimal maintenance, making them a practical and aesthetically pleasing choice for any home or business. With spray granite, you can unleash your creativity and achieve stunning surfaces that will stand the test of time.

SEAMLESS SOLUTION FOR WALLS AND FLOORS

SCRATCH RESISTANT

Spray granite is the ultimate product for achieving seamless walls and internal floors that are both stylish and practical. You can mix and match different granite colours to create modern spaces that are easy to maintain.

Spray granite floors boast quick installation and, just like walls, are fully waterproof and hard-wearing, with anti-scratch and anti-crack properties. They can withstand high foot traffic, making them ideal for commercial as well as residential spaces.

Spray granite is also compatible with underfloor heating systems and can mimic the heat exchange properties of natural stone.

It is an excellent choice for those who want the luxurious feel of natural stone but without the high maintenance and cost.

A CONSCIOUS CHOICE

FRIENDLY TO THE ENVIRONMENT

Step into a world of sustainable choices with spray granite, the revolutionary alternative to traditional granite.

Manufactured in the UK from carefully sourced materials, this environmentally conscious solution is designed to minimise its impact on the planet. Spray granite contains no dangerous chemicals and is odour-free with anti-bacterial properties, providing a safer and greener option for your project.

By opting for spray granite, you're making a responsible decision that supports sustainability and helps to reduce your project's environmental footprint. Embrace a greener future without compromising on the quality or aesthetics of your design.

SPRAY GRANITE EVERYWHERE

COMFORTABLE *home interiors*

Creating comfortable and inviting home interiors is something everyone strives for. One way to add a touch of comfort and sophistication to your home is by incorporating spray granite coatings into your decor. They can be used to enhance feature walls in the living room, bedroom walls, panelling on the stairs, and even seamless floors. The variety of colours and patterns available makes it easy to match your unique style and create a cosy and harmonious space. Not only are spray granite coatings stylish and luxurious, but they are also durable and easy to maintain. With their eco-friendly properties, they are a perfect way to bring sustainability to your home design.

CREATIVE *business spaces*

Designing a creative and inspiring workspace is crucial for any business. An often overlooked feature of an office design is the flooring. Spray granite flooring is a great option for those who want to create a stylish and durable office environment. With its wide range of colours, spray granite floors can be matched to any branding, making it a valuable element to any design. In addition to its aesthetic appeal, spray granite flooring is also robust and durable, designed for heavy foot traffic. They are also safe and hygienic thanks to anti-bacterial and anti-microbial properties of spray granite. So why not bring the sophistication and practicality to your workspace with spray granite today?

CALM AND *relaxing bathrooms*

A calm and relaxing oasis in your bathroom can be easily achieved by incorporating seamless spray surfaces. Spray granite is a perfect solution for modern wall-to-ceiling surfaces that are fully waterproof. Its anti-bacterial and anti-mildew properties allow you to wave goodbye to the unsightly and harmful effects of mouldy seams, creating a hygienic and sophisticated bathroom environment. The durability of spray granite surfaces means they are resistant to cleaning products and scratching, ensuring they will look great for years to come. Not only are they stylish and practical, but they are also eco-friendly, making them a smart choice for any homeowner.

IMPRESSIVE *architectures*

When it comes to designing a house or a building, many people tend to focus more on the interior design rather than the exterior. However, the outside of your property is just as important as the inside, as it often creates the first impression of your home or business. The spray granite coating system is a perfect solution for outside walls, as it is resistant to elements and can be applied to every exterior wall surface - from bricks and concrete to render, metal, and wood. This coating allows walls to breathe while also protecting them from water damage. Unlike other outside wall finishes, spray granite doesn't crack or crumble and can even be jet washed to keep it looking brand new.

INFINITE DESIGNS

MULTIPLE FINISH OPTIONS

Spray granite comes in various finishes to allow you to tailor its surfaces to suit your unique needs.

Choose between textured, smooth, satin, matt, or high gloss finishes to make your surfaces stand out.

Express your personal style and vision with unlimited flexibility of spray granite, creating a truly unique space that reflects your taste and personality.

Whether you want to make a bold statement or add subtle sophistication, spray granite offers the creative freedom to achieve your desired look.

EXTERNAL COATING SOLUTION

STRONG AND STURDY

Spray granite coating system is an extremely durable and long-lasting solution for outside walls.

Whether you want to add an eye-catching facade or give your entire property a full makeover, spray granite offers a long-lasting finish that is resistant to all types of weather and is fully waterproof while allowing the house to breathe. Its flexible and crack-resistant properties mean that it won't start to crumble after a few years and will remain looking great for years to come.

It is also sturdy enough to be cleaned with a power washer to maintain clean and shining surfaces. So, if you're looking for a strong and stunning solution for your outside walls that will stand the test of time, look no further than spray granite.

Spray granite is the new trendy textured coating option for living rooms. It's a great choice for venturing beyond the standard painted surfaces and giving an edge to the walls.

With its wide range of colours and finishes, it can add depth and character to any living room space. Moreover, unlike traditional textured coatings, spray granite is sturdy and long-lasting and your walls will look incredible for years to come.

EXQUISITE EXTERNAL COATINGS

UNLIMITED APPLICATIONS

House exterior design is more important than ever and spray granite can help you ensure that your home looks on point from the outside (as well as the inside).

The spray granite coating system can be applied to a wide range of surfaces, including bricks, render, concrete, UPVC, and wood. The system provides a durable and long-lasting finish that is resistant to the elements and won't crack and crumble like other products on the market.

Don't be afraid to choose bright colours, as spray granite stays clean for longer due to its hydrophobic properties. It is also strong enough to be power washed to keep your outside walls looking as clean as the day they were installed.

With spray granite, you can transform the exterior of your home into a beautiful modern space that reflects your personal style.

Featuring a dark grey backdrop, this colour is brought to life with a mix of deep reds, light pinks, and dashes of black, creating a stunning contrast and seamless finish. Perfect for exterior walls, this colour pairs beautifully with red bricks, creating a natural and inviting atmosphere.

FINISH OPTIONS

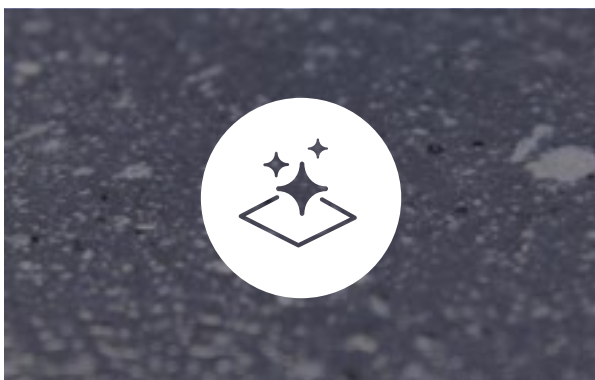

HIGH GLOSS

A finish that will make your surfaces shine. The spray granite system is available in a high gloss finish that not only adds a layer of protection but also gives your surfaces an elegant and modern look. The high gloss finish is perfect for those who want to create a sleek and polished appearance in their homes.

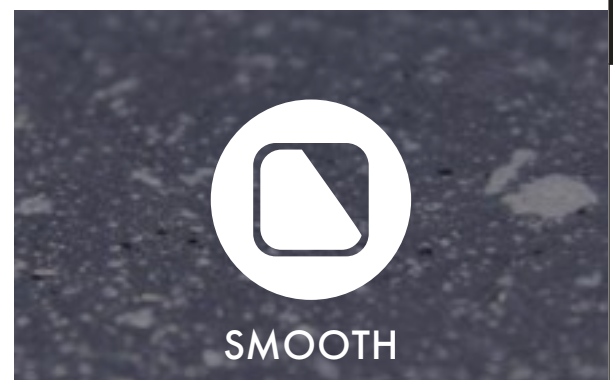

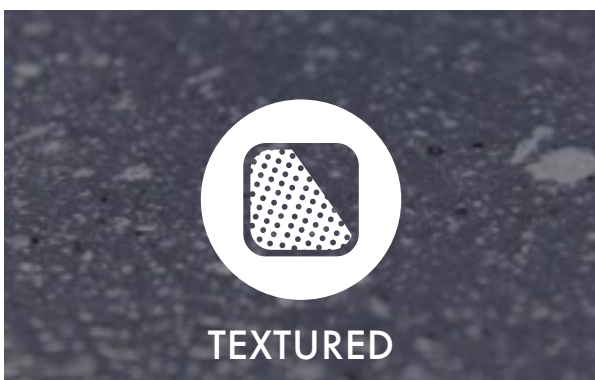

MATT

This sleek and modern finish is an excellent choice for those who want a more subtle and understated look. The lack of gloss gives a tactile feel that creates a calming effect in any space. Not only does it look fantastic, but it's also practical, being scratch-resistant and low maintenance.

SATIN

The spray granite satin finish option provides a smooth, elegant look with a subtle sheen that is perfect for any space. It is an ideal option for those who want a more natural look and feel, while still maintaining the durability and low-maintenance benefits of spray granite.

TECHNICAL SPECIFICATIONS

A SAFE CHOICE

Spray granite is a popular and versatile coating that boasts a long list of benefits.

It is a waterproof and seamless solution that is ideal for wet areas such as bathrooms and kitchens as well as outside walls. The coating is highly durable and scratch-resistant, making it a great choice for high-traffic areas.

Additionally, it is low maintenance and easy to clean, making it a convenient option for homeowners and businesses. With its excellent technical specifications, spray granite is a practical and stylish solution for a wide range of applications.

TECH SPECS

RESISTANCE & DURATION

WATERPROOF

Spray granite systems are completely non-porous and therefore ideal for exterior wall applications as well as bathrooms and floors.

UV RESISTANT

Spray granite surfaces maintain their colour when exposed to direct sunlight, remaining just as the first day installed.

STAIN RESISTANT

No need to worry about spilt wine stains or any other spillages as spray granite is waterproof and can be easily cleaned.

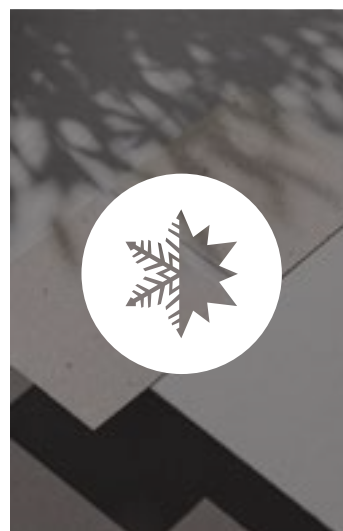

SCRATCH RESISTANT

Surfaces are hard-wearing and resistant to scratches. They are tough enough to be used as a warehouse flooring solution.

CHEMICAL RESISTANCE

Spray granite does not stain and resists the most harshest chemical agents including heavy day-to-day cleaning products.

WEATHER RESISTANT

Spray granite will not change or crack as a result of sharp temperature fluctuations including hot or cold temperatures.

TECH SPECS

ZERO VOCs

Spray granite products have been carefully designed and do not emit volatile organic compounds also known as VOCs.

ZERO ALLERGENS

Spray granite surfaces are free of any allergens such as fungi, moulds, mites, microbes, bacteria that could cause a reaction.

ANTI-BACTERIAL

Spray granite has been purposely engineered to be resistant to all types of bacteria ensuring surfaces are hygienic and safe.

ODOUR FREE

Unlike other coating materials, spray granite is extremely quick drying and does not emit strong odours when being applied.

ANTI-MICROBIAL

Additional coatings are available which not only prevent bacteria to grow on surfaces, but it actively kills 99.9% of microbes.

ZERO PVC

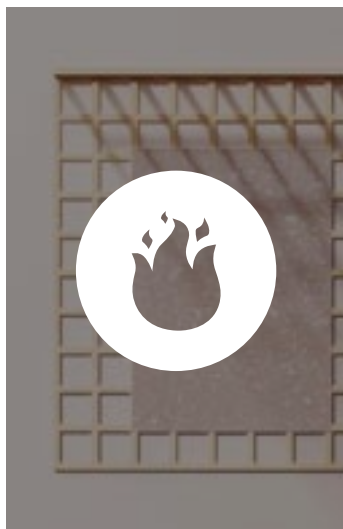

Despite its versatility and multiple applications, ingredients in the spray granite systems do not contain PVC.

SAFETY

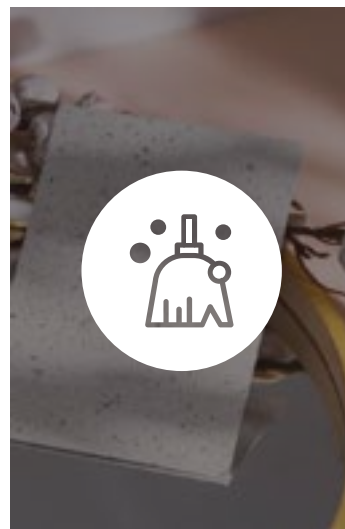

NON-SLIP

Spray granite floors are made with an abrasive grit to reduce the risk of slipping. A higher friction can be achieved if required.

HEAT RESISTANT

Spray granite surfaces do not change shape at high temperatures and perform just as well when compared to traditional kitchen tops.

LOW MAINTENANCE

Surfaces coated with spray granite only require minimal maintenance & can be easily cleaned with simple detergent & water.

ENVIRONMENT

SHIPPING EFFICIENT

One container fits 1,500m² of real granite, whereas it can hold 150,000m² of spray granite. That's a whopping 100 times more!

FLOOR HEATING FRIENDLY

Spray granite is an ideal option for seamless floors and can be effectively combined with floor heating systems.

ECOLOGICAL

Spray granite products are environmentally friendly with a low environmental impact from production all the way to distribution.
